PERFECTION ASBESTOS-PROTECTED TIRES

Run Twice as Long as Any Other

They are Built For Rough, Hard Usage

Never has any tire filled more tire requirements than Perfection.

Now universally known, Perfection has become the leader for endurance, dependability and economic service.

It is the only really good tire manufactured because it withstands the many tortures to which other tires succumb.

Perfection gives more mileage at a lower cost than any other brand—any Perfection owner will prove that.

Perfection's resistance against depreciation is almost 100 per cent greater than the average of twenty-eight makes—simply because Perfection is constructed to last—to give absolute satisfaction.

A Trial Will Put You on Our List of Satisfied Customers

She Deserves the Best —A Cabinet Gas Range

THE best is none too good for your wife. Take some of the burdens of housework from her shoulders--don't see her stooping before a clumsy, unsightly, dirty coal range --spending hours in the kitchen in place of sixty minutes--lugging coal, building a fire, hauling out ashes, etc.

Helps Save Food and Fuel

A Cabinet Gas Range will not only eliminate all the fuss and work and dirt of the old way of cooking, but it will prove a distinct economy by saving fuel and food.

We are showing a complete line of finest ranges at very reasonable prices. Come in.

Selected pies for hungry guys, the kind that mother made
The best of veal and good oatmeal, hash, soup, and lemonade
Assorted steaks and buckwheat cakes and doughnuts brown and round
United here is high class cheer in (EATS) that's clean and sound
Romp in for lunch, we have a hunch that you will call again
All meals we serve will help your nerve and never give you pain
No phony brews or sloppy stews are served in here, old Pard
This rhyme will show you where to go, so keep this little card.

Introductory

The Publishers take great pleasure in placing before the public the 1919 issue of the Bloomington and Normal City Directory, and trust that it will meet with their approval. We assure the public that nothing has been left undone on our part to make the book what it should be—a Directory that directs.

Not only is the Directory a very necessary and indispensable work for local usages, but it is a valuable means of extending throughout the country information concerning Bloomington, its advantages, resources and prospects, and it is a matter of more than ordinary importance to every individual that he be properly represented in this standard work of reference.

To gather the data and compile a volume of this character is no easy task. It requires much time, a well defined system, and incurs no little expense. Few people have any idea of the work it means and the tenacity it takes to publish a reliable Directory.

In preparing this book the Publishers have spared neither time nor expense, and if errors occur or a single name is omitted which should appear in the work, it is generally the fault of the public and not of the publishers, as every house is visited and it is not the publisher's or canvasser's fault if some one fails to give all the information or gives it incorrectly. The intentions of the Publishers is always for improvement, and you can always count on getting as accurate a Directory as circumstances will permit.

We wish to thank our patrons who have made this book possible, and the people of the city for their courtesy in giving information.
